

AMIR ABBAS SALARI NASAB

Full-Stack Developer | Backend-Focused | Python • Django • React

amirabbassalarinasab@gmail.com +98 916 243 4323 Kerman linkedin.com/in/amirabbas-salari

SUMMARY

Computer Engineering student passionate about Backend Development, Artificial Intelligence (AI), and Internet of Things (IoT). Experienced in developing web applications using Python, Django, Django REST Framework, and React. Eager to learn, grow, and build scalable software solutions.

PROJECTS

MovieVerse – Full-Stack Movie & TV Platform

- <https://jmovie.amirabbassalarinasab.workers.dev>
- Developed a movie and TV series platform using Django REST Framework and React
- Designed RESTful APIs for movies, series, actors, genres, and collections
- Implemented authentication, advanced search, filtering, and responsive UI
- Tech Stack: Python, Django, DRF, React, PostgreSQL, SQLite, Git

Barbershop Appointment Booking Backend

- Developed REST APIs for appointment scheduling and service management
- Designed database models and role-based authentication
- Implemented booking management using Django ORM and DRF
- Tech Stack: Python, Django, DRF, PostgreSQL, SQLite, Git

CERTIFICATIONS

Django Backend Development

Issuer: Quera College

Advanced Python Programming

Issuer: Quera College

Python Programming

Issuer: Technical and Vocational Training Organization of Iran

C++ Programming

Issuer: Faradars

SKILLS

- **Backend:** Django | Django REST Framework | Django ORM | RESTful API Design | JWT Authentication | API Documentation (OpenAPI/Swagger)
- **Frontend:** React.js | HTML5 | CSS3 | Tailwind CSS | JavaScript | Responsive Design
- **Databases:** PostgreSQL | SQLite | MySQL | ERD Design
- **Tools:** Git | GitHub | Atlassian Jira | Postman | dbdiagram.io
- **Software Engineering:** Clean Code
- **IoT & Embedded:** Arduino | STM32 | ESP32 | Raspberry Pi | MicroPython | Proteus

STRENGTHS

Problem Solving

Develop efficient and practical solutions for complex technical challenges.

Fast Learner

Quickly adapt to new technologies, frameworks, and development tools.

Technical Documentation

Create clear technical documentation, API references, and project guides to improve collaboration and maintainability.

EDUCATION

B.Sc. in Computer Engineering,

Shahid Bahonar University of Kerman

2022 – Present | Kerman, IR

LANGUAGE

Persian — Native

English — Professional Working Proficiency

Turkish — Conversational
