

AMIR ABBAS SALARI NASAB

Full-Stack Developer & AI Engineer | Django • React • Computer Vision

amirabbassalarinasab@gmail.com +98 916 243 4323 Kerman
 linkedin.com/in/amirabbas-salari amirabbassalari.ir

SUMMARY

Computer Engineering student and Full-Stack Developer focused on Backend Development, AI, and Computer Vision. Experienced with Python, Django, React, PyTorch, OpenCV, and MediaPipe, with hands-on experience building scalable web applications and real-time AI systems.

PROJECTS

Advertisement Gaze Analytics – AI Gaze Tracking System

- Developed real-time gaze estimation and advertisement attention analytics using facial landmarks and deep learning
- Python, PyTorch, OpenCV, MediaPipe, L2CS-Net, InsightFace, ONNX runtime

AI Hand Mouse Control – Real-Time Computer Vision System

- Built a real-time virtual mouse using MediaPipe hand tracking and gesture recognition
- Python, OpenCV, MediaPipe, PyAutoGUI, NumPy

MovieVerse – Full-Stack Movie & TV Platform

- <https://jmovie.amirabbassalari.ir>
- Built a movie & TV platform with REST APIs, authentication, search, and filtering
 - Python, Django, DRF, React, PostgreSQL

Barbershop Appointment Booking Backend

- Developed REST APIs for appointment booking, services, and role-based authentication
- Python, Django, DRF, PostgreSQL

CERTIFICATIONS

Django Backend Development

Issuer: Quera College

Advanced Python Programming

Issuer: Quera College

Python Programming

Issuer: Technical and Vocational Training Organization of Iran

C++ Programming

Issuer: Faradars

LANGUAGE

Persian — Native

English — Professional Working Proficiency

Turkish — Conversational

SKILLS

AI & Computer Vision

Computer Vision | Deep Learning | PyTorch | OpenCV | MediaPipe | Face Analysis | Gaze Estimation | Hand Tracking | Gesture Recognition | Face Recognition | ONNX Runtime

Backend

Django | Django REST Framework | Django ORM | RESTful API Design | JWT Authentication | API Documentation (OpenAPI/Swagger)

Frontend

React.js | HTML5 | CSS3 | Tailwind CSS | JavaScript | Responsive Design

Databases

PostgreSQL | SQLite | MySQL | ERD Design

Tools

Git | GitHub | Atlassian Jira | Postman | dbdiagram.io

Software Engineering

Clean Code

IoT & Embedded

Arduino | STM32 | ESP32 | Raspberry Pi | MicroPython | Proteus

STRENGTHS

Problem Solving

Develop efficient and practical solutions for complex technical challenges.

Fast Learner

Quickly adapt to new technologies, frameworks, and development tools.

Technical Documentation

Create clear technical documentation, API references, and project guides to improve collaboration and maintainability.

EDUCATION

B.Sc. in Computer Engineering,
Shahid Bahonar University of Kerman
2022 – Present | Kerman, IR
